EDUCATION

2021 - 2024

DR .BABASAHEB

AMBEDKAR MARATHAWADA
UNIVERSITY

- Bachelor's of Computer Application(BCA)

SKILLS

- Functional Testing
- Regression Testing
- Integration Integration
- Retesting
- GUI Testing
- UAT Testing
- Agile Methodologies
- JIRA
- Selenium
- Core java
- TestNG
- POM
- BDD
- Maven
- Git & Github

PROFILE

QA trainee with 6 months of experience in manual and automated testing. Skilled in creating test cases, identifying defects, and collaborating with development teams to ensure product quality. Familiar with SDLC, Agile, and testing tools. Eager to apply strong attention to detail and contribute to high-quality software delivery.

WORK EXPERIENCE

- Expert in **SDLC, STLC, Manual testing.**
- Experience in **Java, Selenium, and TestNG** for automating web application tests and validating data accuracy.
- Develop comprehensive **Test Cases and strategies** based on project requirements.
- Conduct exploratory testing to discover hidden issues and usability concerns.
- Skilled in **JIRA for defect tracking within Agile Environments.**
- Extensive experience in designing and executing manual test cases.
- Strong analytical skills and adaptability to evolving project requirements.
- Excellent communication for effective collaboration with cross functional team.
- Expertise in performing different type of testing: **Sanity Testing, Black Box Testing, Smoke Testing, Functional Testing, Integration Testing, Retesting & Regression Testing.**
- Sound technical knowledge, excellence expose and ability to learn any tool quickly.
- Experience in **API (Postman)** & SQL queries to check table update and data retrieval.
- Experience in Integrated tests into **CI/CD pipelines with Jenkins.**

- Postman
- Jenkins
- CI/CD
- Data-Driven
- SQL

PROFESSIONAL SUMMARY

- QA Trainee
(Fulltime Internship)
SsquareIT Solutions
Jun 2024 - Nov 2024

CERTIFICATION

- SsquareIT Solutions, Pune
QA Training

- Exposure to **Git/GitHub** for version control and repository management.
- Basic understanding of **Page Object Model(POM)** design pattern for implementing test scripts.

PROJECT

QA Trainee and Internship(SsquareIT Solutions)

Jun 2024 - Nov 2024

- **PROJECT NAME :- Payment Processing**
- **Domain : eCommerce**
- Payment Processing module efficiently handles the entire payment flow—from payment method selection and secure data transmission to fraud detection and authorization—resulting in a quick, seamless, and secure transaction. This minimizes cart abandonment and ensures a smooth experience for both the customer and the merchant.

ROLES & RESPONSIBILITIES

- Developed and executed automated test scripts using Selenium, TestNG and Core Java to validate payment processing functionality.
- Conducted API testing with Postman and automated API validations using RestAssured, ensuring secure and accurate payment transactions.
- Performed SQL-based database testing to validate transaction data integrity across payment and refund processes.
- Designed and executed functional, non-functional, integration, and performance tests for the payment module, covering edge cases and system scalability.
- Implemented regression, smoke, and sanity testing for continuous delivery pipelines integrated with Jenkins and CI/CD processes.
- Collaborated in Agile/Scrum environments, participating in sprint planning, standups, and retrospectives to ensure timely delivery of QA tasks.
- Utilized JIRA for bug tracking and test case management, ensuring transparent communication and efficient defect resolution.
- Ensured seamless integration testing between payment gateways and external systems, validating successful payment and fraud detection processes.
- Conducted UAT and GUI testing ensuring compliance with user requirements and a smooth checkout experience across devices and browsers.
